

**Please Join Us**

**For A Candle-lit Vigil to honour all those who died  
in climate related disasters across BC this year**

**December 13<sup>th</sup> from 5:00 to 6:00 pm**  
**Outside our MLA Nicholas Simons's office**  
**4720 Sunshine Coast Highway in Davis Bay**  
**Meet on the pier at 5pm for introductions**

We come together to join an evening of action at MLA offices across BC to mourn and honour all who have died due to climate related disasters- whether by fire, flood, landslide or the heat dome- and to call on elected representatives to confront the climate emergency and help prevent future deaths. This gathering will be largely a silent, thoughtful contemplation where we can share our experiences and grief with our community and leaders and reflect on the great loss that has taken place.

What to bring: a candle, bike light or flashlight; a sign, if you like; weather appropriate clothing; a safety vest is recommended for visibility. This is a family friendly event.

This event is organized by Alliance4Democracy, endorsed by the Climate Emergency Unit, Sunshine Coast Climate Action Network, and For Our Kids Sunshine Coast.
